RTO Provider No. 31178

V6 - 7/6/2018

### Who Should Attend

Individuals who wish to become competent in testing and tagging of electrical equipment in accordance with the Electrical Safety Regulation 2013. This may include persons involved in the building, construction, maintenance, manufacturing and service industries.

### What will I learn?

This unit covers safety testing of electrical cords and cord connected equipment. It encompasses safely, using portable apparatus tester, identifying faults, applying tagging, arranging for repair of faulty equipment and complete testing documentation.

### Am I eligible to undertake this training?

**You do not need to be a licensed electrical worker to test and tag certain electrical equipment.** However, all participants will need to have adequate numeracy and literacy skills to undertake the theory and practical assessments.

### Choose your Outcome! \*

This course may be undertaken as non-accredited training, where you will receive a Statement of Attendance at the end of the day. For non-accredited training, you will not be required to do any further assessments, other than those on the day.

For those who would like to undertake accredited training and receive a Statement of Attainment for the two units of competency, there is an assessment to undertake prior to course attendance, as well as an assessment on the day.

*\*Price remains the same whether you choose accredited or non-accredited training, however please note the accredited price is GST exempt, and the non-accredited price is inclusive of GST.*

### Non-Accredited Training

This course may be done as non-accredited training. You will still be able to undertake Testing and Tagging at home and for your workplace, and be deemed a 'competent person' with the non-accredited course, as you will be assessed on the day. You will receive a Statement of Attendance at the conclusion of the training.

### Accredited Training

For those who would like to receive a Statement of Attainment for the two units of competency associated with this training, you will need to do one assessment prior to enrolment, and then a second assessment on the day of the course.

The unit UEENEEE101A Apply Occupational Health and Safety regulations, codes and practices in the workplace is a pre-requisite, which must be completed on-line prior to attendance in class. Please note you will be enrolled in the non-accredited training if you do not complete this unit prior to the Test and Tag course.

## Objectives

At the completion of the course participants will be able to:

- ▶ explain relevant areas of the Electrical Safety Act and subordinate legislation;
- ▶ identify the type of equipment required to be inspected and tested;
- ▶ explain the facts about electricity;
- ▶ prepare to test cord assemblies and cord connected apparatus;
- ▶ test cord assemblies and cord connected apparatus;
- ▶ tag tested cord assemblies and cord connected apparatus;
- ▶ document testing activities.

## What can I do with my new competency?

This course allows you to test and tag equipment within your own organisation. To test and tag outside of your organisation, you will need an electrical license. Please contact the Electrical Safety Office with regard to licensing at [www.worksafe.qld.gov.au/licensing-and-registrations/electrical-licences](http://www.worksafe.qld.gov.au/licensing-and-registrations/electrical-licences)

## Additional Costs and Expenses

Where the training is conducted outside the immediate Cairns area then additional costs will be applicable. Any airfares, travel, accommodation, meals and materials freight incurred in the provision of this training will be on-charged. Mileage will be charged at 80¢ (plus GST) per kilometre and traveling time will be charged at our standard rates. Please contact us for a formal quotation for courses conducted outside of Cairns.

Where consideration needs to be applied due to cultural, language, literacy, numeracy or other special needs, extra time will be allowed to ensure participants receive sufficient supported training. This time will be charged at our standard rates.

## Course Venue and Equipment

This course may be conducted in our training rooms in Cairns, or on-site at client premises. Where courses are conducted on-site then a suitable venue and white board are to be provided by the client company. The venue shall have sufficient tables and chairs for participants to be seated comfortably for the duration of training. Any catering costs shall be borne by the client company. Please contact us to discuss alternate arrangements if there is any difficulty in providing these facilities and equipment.

## How to Book an On-Site or Dedicated Course

Contact our office to book an on-site or dedicated course for your organisation. Dates will be scheduled at the time of booking.

## How to Enrol in a Public Course

Contact our office for the latest course schedule and enrolment form. Fax, email or post the completed enrolment form back to Total Management and Training, along with payment. Please advise on the enrolment form whether you would prefer accredited or non-accredited training (please note if you are undertaking this training under funding, you must choose the accredited option). If you choose accredited, we will email you the pre-requisite assessment to complete.
